ZONES & KITS GUIDE

media technologies

Welcome
to the mediaspace Zones & Kits Guide.

We have been "doing" libraries and media spaces for a long time. We've learned a few things along the way (and we are still learning). We have developed this Guide to help make planning and designing your media space one heck of a lot easier. Here's how it works…

1

We're going to ask you to fill out a questionnaire that will "encourage" you to define several important details and parameters of your project. Once you have that information, you will be ready to proceed.

2

We want you to imagine your media space project as a puzzle. What the picture looks like when you are done is up to you. We have a lot of "puzzle" pieces you can use to help create your picture. We're going to tell you a little bit about each piece and what it can do for you.

3

We're going to show you three real-life media space examples that we call "Typicals". Each Typical will be broken down into Zones. We'll show you the types of furniture used in each zone plus special product groupings (that we call Kits) selected to enhance and support what goes on in each Zone. Use these ideas in your space.

We've filled the rest of the Guide with many idea-images from media space installations around the country.

Feel free to pick and choose what you would like to implement in your own space. Borrow as much or as little as you want. Did I say borrow? Heck, you can have it. The information is here for you to use.

We're here for you to use as well.

www.mediatechnologies.com

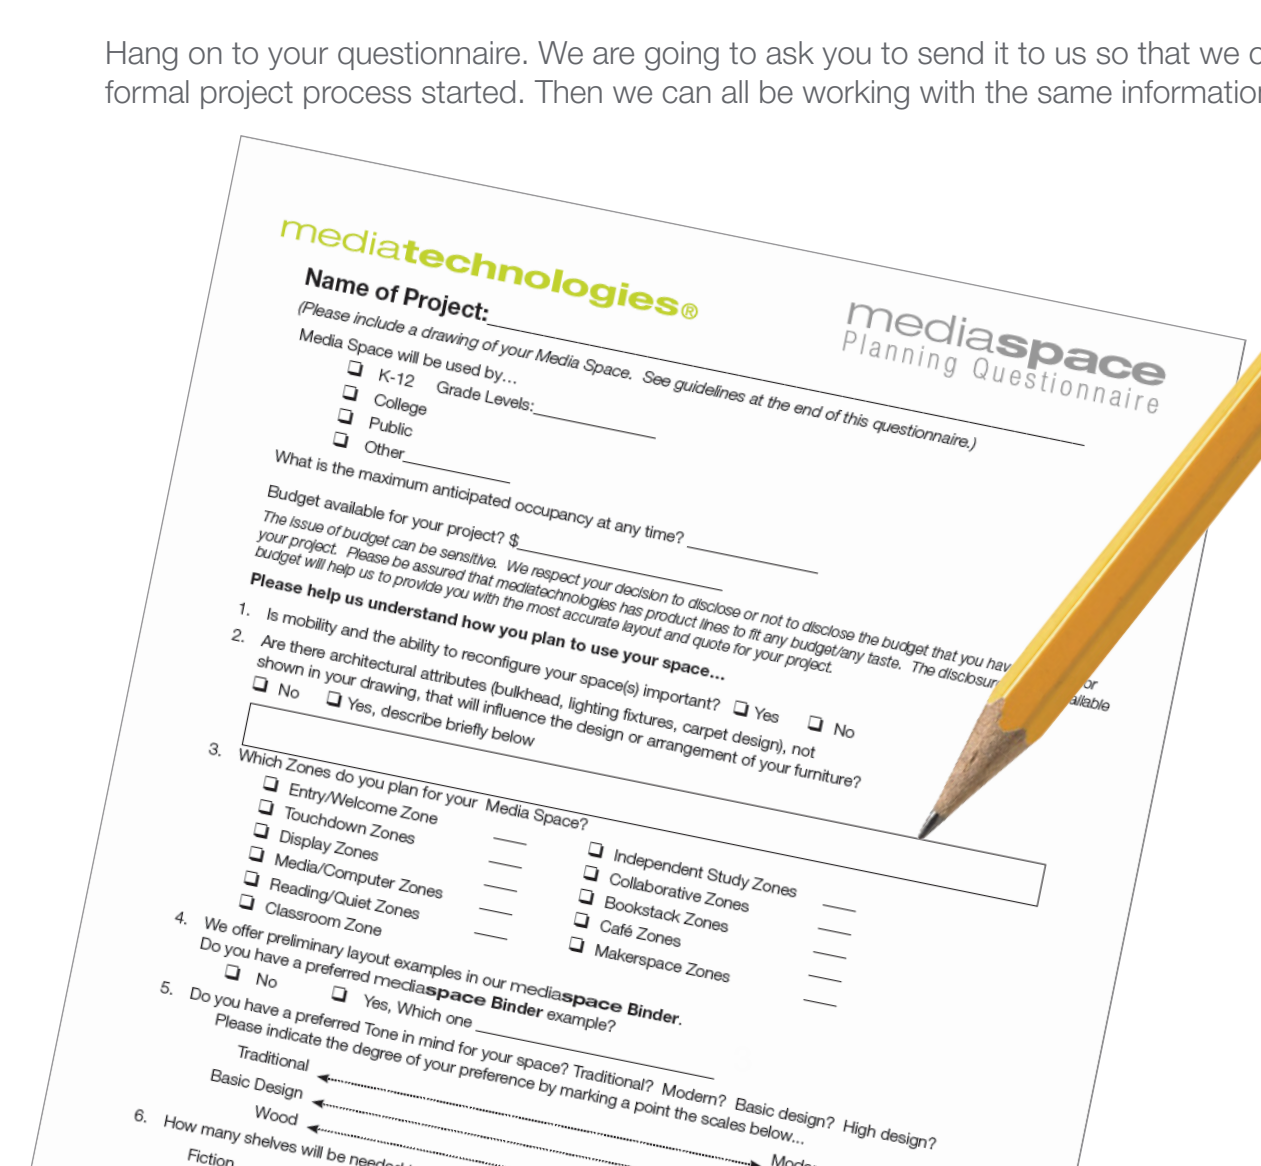

mediaspace Planning Questionnaire

If you haven't already done so, go to our website and download a copy of our mediaspace Planning Questionnaire at www.mediatechnologies.com/resources/downloads/forms.

That's right. Don't jump into the book just yet. Don't even look at the Table of Contents. Fill out the **mediaspace Planning Questionnaire**. Answering each of the questions will help you "cover all the bases" and get a better feel for ALL the factors that may affect your project.

After you finish filling out your questionnaire, you can begin to browse the pages of the book. The info from the questionnaire will give you a pretty good picture of the parameters that are going to shape your media space.

Hang on to your questionnaire. We are going to ask you to send it to us so that we can get the formal project process started. Then we can all be working with the same information.

mediatechnologies®

mediaspace Planning Questionnaire

Name of Project: _____

(Please include a drawing of your Media Space. See guidelines at the end of this questionnaire.)

Media Space will be used by...

- ❑ K-12 Grade Levels: _____
- ❑ College
- ❑ Public
- ❑ Other _____

What is the maximum anticipated occupancy at any time? _____

Budget available for your project? $_____

The issue of budget can be sensitive. We respect your decision to disclose or not to disclose the budget that you hav... your project. Please be assured that mediatechnologies has product lines to fit any budget/any taste. The disclosur... budget will help us to provide you with the most accurate layout and quote for your project.

Please help us understand how you plan to use your space...

1. Is mobility and the ability to reconfigure your space(s) important? ❑ Yes ❑ No
2. Are there architectural attributes (bulkhead, lighting fixtures, carpet design), not shown in your drawing, that will influence the design or arrangement of your furniture?
   ❑ No ❑ Yes, describe briefly below
3. Which Zones do you plan for your Media Space?
   - ❑ Entry/Welcome Zone
   - ❑ Touchdown Zones ___
   - ❑ Display Zones ___
   - ❑ Media/Computer Zones ___
   - ❑ Reading/Quiet Zones ___
   - ❑ Classroom Zone ___
   - ❑ Independent Study Zones ___
   - ❑ Collaborative Zones ___
   - ❑ Bookstack Zones ___
   - ❑ Café Zones ___
   - ❑ Makerspace Zones ___
4. We offer preliminary layout examples in our media**space Binder**.
   Do you have a preferred media**space Binder** example?
   ❑ No ❑ Yes, Which one _____
5. Do you have a preferred Tone in mind for your space? Traditional? Modern? Basic design? High design?
   Please indicate the degree of your preference by marking a point the scales below...
   Traditional ⟷ Modern
   Basic Design ⟷ High Design
   Wood ⟷ Metal
6. How many shelves will be needed...
   Fiction

mediatechnologies®

Pieces to your mediaspace puzzle

Your Space

Your existing space (whether it's a remodel, or a new build) is the box to your puzzle!

Our Products

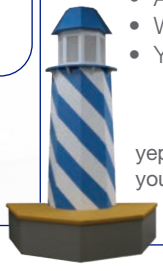

All of our products featured in this Guide can be viewed in the Anyspace catalog or on our website.
Visit mediatechnologies.com for more information!

Our Services

media spaces are not a one size fits all... and the pieces of one shouldn't be either!

That's why mediatechnologies offers many pieces to the puzzle! Here is a list of what we have to offer:

- Centuries of library experience
- 2D/3D space planning
- Custom product design
- Product consultation
- 3D rendering
- CET
- CAD
- ReVit
- Unlimited finish selection... (virtually)
- Colorboarding
- Build and Store
- An incredibly intuitive website, packed full of information.
- We stay current with the trends and continue to move forward.
- Yes, you can get it in wood!

yep, we made this custom lighthouse. You can hang it on your fridge if you want... (magnets not included).

Our Materials

How do you finish your puzzle? What makes it your very own?

Our vast selection of **PRODUCTS, MATERIALS, FINISHES,** and **FABRICS** are available to help you create a magnificent space, to call your very own.... and share with the world! (Ok, probably just a selection people from your neighbourhood... BUT it could end up on our website and social media channels too!)

Need a little help? Remember, mediatechnologies offers **COLORBOARDING!**

Come on... Lets build your puzzle!

mediaspace Zones & Kits Guide

The **IDEAS** & **TYPICALS** in this mediaspace **GUIDE** are tangible pieces to your puzzle.

We're sharing a few "typical spaces" in the next section of this **GUIDE** These spaces are pretty unique and offer you a handful of ideas to use "as-is" OR... to get you started with a concept that you tweak to be your very own.

The **KITS** featured in this **GUIDE** are designed to support and/or enhance specific functions within your media space....AND... they're customizable in design by changing the orbiting products (more on that later) and materials and finishes to fit your style and budget!

Our **IDEAS** section shares media space puzzles that others have completed. Don't see what you're looking for? Check out our website for the latest and greatest builds. We update our website's product images, and Gallery weekly!
https://www.mediatechnologies.com/

Typicals... What are they?

Typicals are "floorplans" that have been proven to work well in today's mediaspace. We're going to examine three "typical" floorplans in this part of the guide, and break each of them down into functional "Zones" for you. Feel free to borrow, copy or steal any typical floorplan or any Zone for your own use. (Hint: that's why we're showing them to you.)

What happens next? *Follow these steps to start laying out your media space.*

FIRST...

Friendly reminder, please have your mediaspace planning questionnaire at hand before moving through this section of the book!

NEXT...

Based upon the structure and size of your space, list the Zones in your media space. For example:

- Welcome
- Classroom
- Commons
- Makerspace

THEN...

Based upon your needs, what Functions will take place inside your media space? Write them down!

- Admin
- Quickstop
- Privacy
- Media/computer
- Display
- Reading/Quiet
- Collaboration
- Independent study
- Presentation
- Instruction
- Stacks
- Storage

You might be asking yourself, where does shelving fit into the puzzle?

In the past, the bookstacks section of a library served one purpose... to house the collection. In today's media space, stacks (that's the hip word these days.. again) are also provide function, definition and shape of spaces. They're found in the perimeter of the media space and the interior of the space to create spaces for what we call **Functions**.

The installation shown above, shows Stacks (Drift product) being used to create a small Space for reading and presentations.

ZONES & Functions

mediatechnologies has been the expert in the field of library planning for 20+ years. We have developed a unique approach to planning a library space that we call *media**space***. *media**space*** is a flexible and adaptable approach to the "library" (we call it media space - a better term for today) in both its form and function and allows the planner to consider the entire media space (library) as an arrangement of **Zones** & **Functions**. Each media space has a unique "scheme" (layout) and by appointing it with Functions we can enhance and support the space's assigned function with different types of furniture.

SUPPORT & Kits

At mediatechnologies we offer a wide selection of furniture to support the functions of your media space. Our kit selections are based upon an **anchor** product that serves a specific function/need/desire for your space and the orbiting products can be changed up with product selection and finish materials to set the "tone" (design) of your space and stay on budget!

HS

High School

Page 52-58

We want your media space to be absolutely stellar!

Let's get started!

We will take you on a journey through a few of our Typical Puzzle Pieces... go on, turn the page!

Keep this information with you throughout this GUIDE.

Scheme

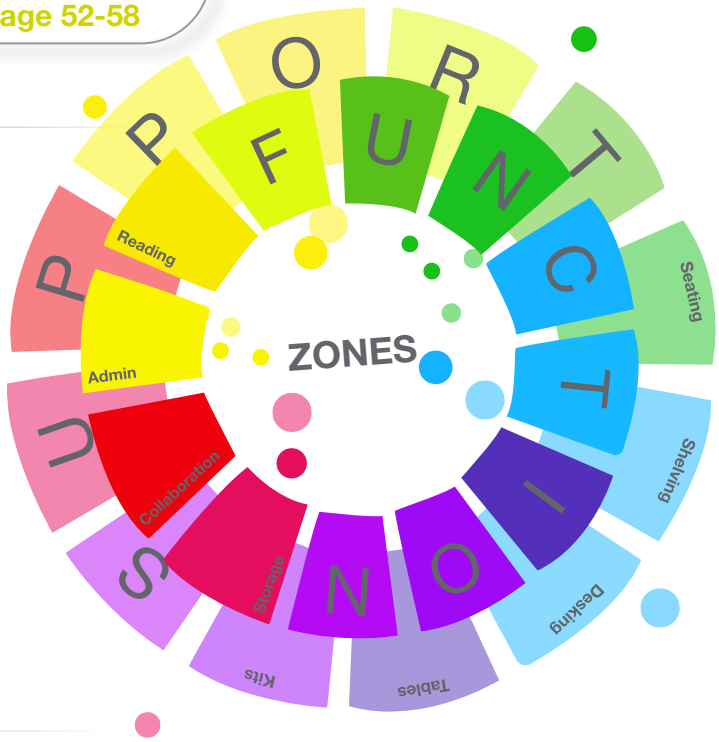

"Scheme" has everything to do with the layout, function and flow of the overall space.

- Primary Zones
- Function
- Seating Capacity
- Collection Size

Tone

The "Tone" of your space is conveyed through the design of the furniture you choose and through your material selection for that furniture.

- Existing space to match
- New Build
- Traditional
- Progressive

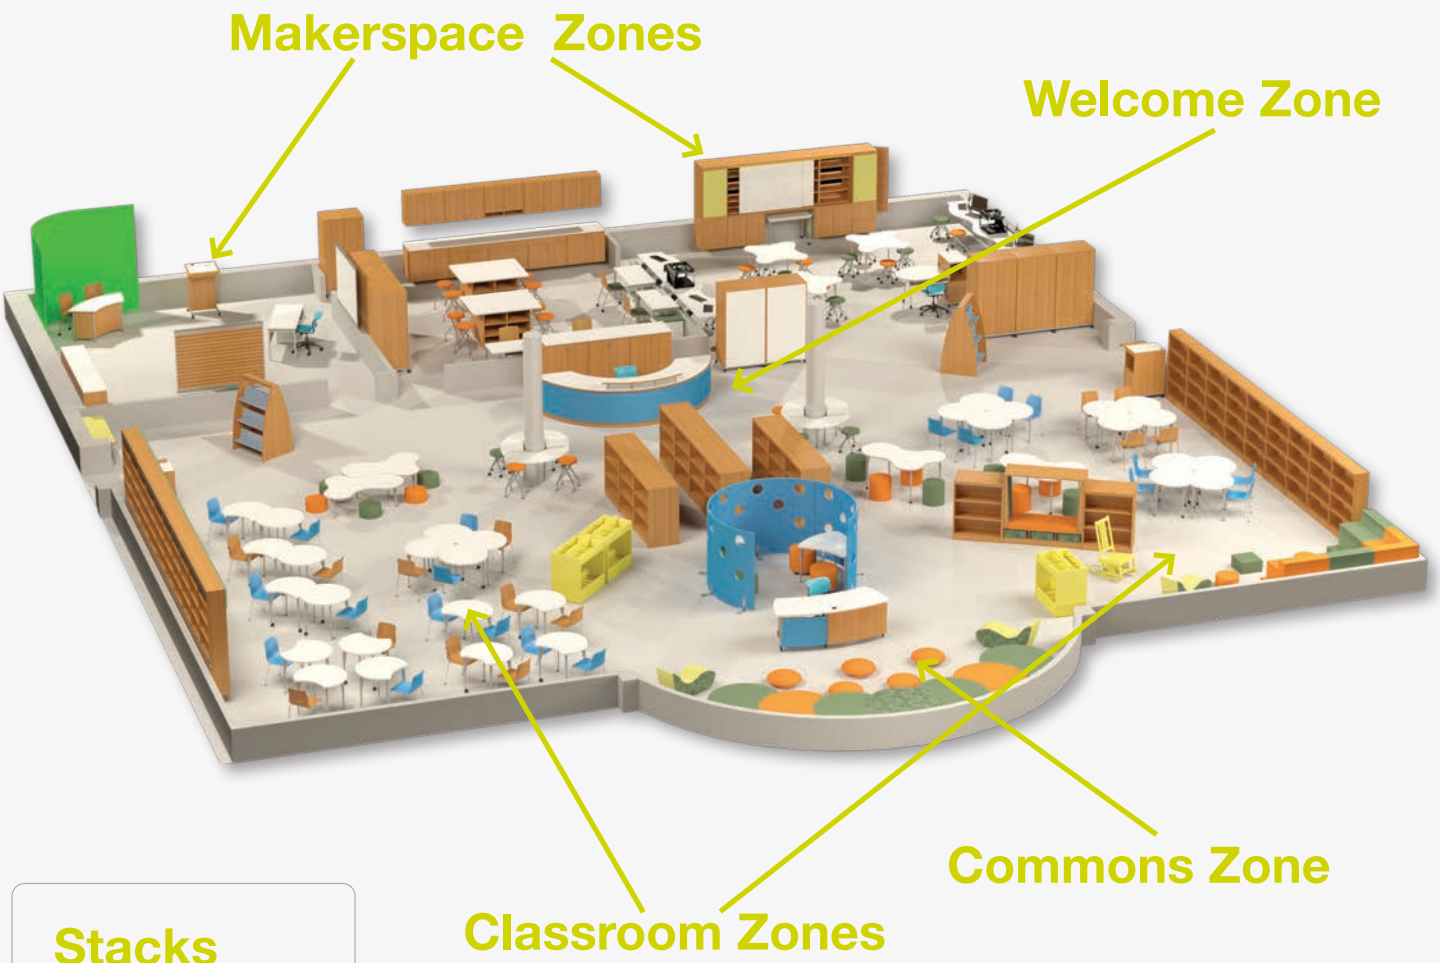

mediatechnologies®

ES Elementary School

Media Space Total
Book Volume: 8600
Student Count: 650 +/-
Seating Capacity: 87

In this particular elementary media space remodel, the administration wanted to focus on the unique architecture of the space. Additionally, they wanted to emphasize *March is Reading month* in order to center the importance of reading among students. A natural zone for this would be the Commons Zone.

Other Zones in this space are Classroom and Makerspace.
Stacks, appears in the perimeter as well as the center of the space to separate the two Classroom Zones.

Stacks

Found in the perimeter of the room,and also used to divide the two classroom spaces while providing a flow to the Commons Zone.

This elementary space contains all 4 Zones, the combination of Functions in these Zones allows for collaboration with supervision.

ES Welcome Zone

Welcome Zone

This Zone includes the point of entry, it welcomes you to the space, as well as the adjoining Zones and their Functions.

Functions

- Admin
- Display
- Quickstop
- Storage

Teacher Design Labs are Admin spaces within or near the Welcome Zone.

Featured Function

The Admin space in a room behind the Circulation Desk.

Ingredients:

- Rubix Mobile Storage
- elements Base, and Wall Storage
- Carlo Stools
- Slide Mobile Chair
- GTX Tables
- Mobile Pedestals
- Work + Box Plank

ES
Commons Zone

Commons Zone

This Zone is designed to allow students to read independently, but with supervision. The Commons Zone is a multi-purpose space, and can work as a relaxed Classroom environment.

Stacks serves more than housing the collection. In today's media space, bookcases are used to define spaces and assist in creating the flow through the space to other zones.

Functions

- Reading/Quiet
- Group Study
- Independent Study
- Privacy
- Stacks

Featured Function

This privacy space, created by mediatechnologies Cheeswall Kit, is placed in the Commons Zone to allow for one-to-one help while allowing the child to stay with their class.

Ingredients:

- Cheesewall
- Full Time Mobile Round Ottoman
- Rockford Pick Table
- Orbit Laptop Table
- Full Time 30˚ Curve Ottoman

The Commons Zone is the perfect place to create small privacy areas for independent reading, or one-to-one student help with paraprofessionals.

ES Classroom Zone

Classroom Zone

This Zone is flexible, and easily adapts to different users. In this Classroom Zone we see Instructional Group and Independent Study, as well as Quickstop, Storage and Stacks Functions.

Functions:

- Instruction
- Group Study
- Independent study
- Quickstop
- Storage
- Stacks

The column wrap works with your existing columns to create single and dual height worksurfaces. Pair with seating of your choice!

Classroom Zone...
The perfect place for Collaboration, Instruction, and Independent study.

A change in scenery can be beneficial to those students who cannot sit in the same room all day.

The mediaspace Classroom Zone is perfect for that. Make it an oasis!

Featured Function

This Reading space allows for students to read independently with supervision, or aloud as a group.

Ingredients:

- Ad Lib Riser Seating
- The Reading Nest
- Rockford Raetsel Tables
- Blox
- Heritage Rocker
- Bookmark Shelving

ES Makerspace Zone

Makerspace Zone

In the Zones shown, we see Media/Computer, Storage, Instructional and Presentation Functions. These functions are crucial to hands on, idea-ology, and making!

Functions:

- Media/Computer
- Storage
- Instruction
- Presentation

Makerspaces come in all shapes and sizes, and serve many different purposes. In the two spaces shown, one is used for video production and review, while the other is used for prototyping, editing and instruction.

Ingredients:

- Rubix Mobile Storage
- CPS Unit
- elements Wave Countertop
- Carlo Stools
- Wingman Desk
- Hannah Task Chair
- Vector Table

Featured Function

This Makerspace Zone is more of an idea-ology space, to invent, prototype, and Collaborate.

eWall Unit is mounted/hung to wall on elements track. Unit features storage, markerboard and tack boards. Vector Table is shown stowed away for use when needed.

Kits to Remember!

Kits are defined by an ***anchor product***. The ***anchor*** *product sets the function of the kit and works well as a stand alone*, but when paired with other products the functionality becomes greater! The kit products are interchangeable with some of our other great products too! What will you ***KIT*** today?

JRHS
Junior High School

Media Space Total
Book Volume: 10450
Student Count: 700 +/-
Seating Capacity: 84

In this particular junior high school mediaspace, the Librarian needed to incorporate a free-range Commons Zone to nurture the newly found independence of the middle school students, but also include Classroom areas that allows for Instruction areas and Collaboration.

The Zones in this space are Welcome, Classroom, Makerspace and Commons.

Stacks, appears in the perimeter as well as the Commons Zone to create small Quickstop and Collaboration spaces.

Stacks

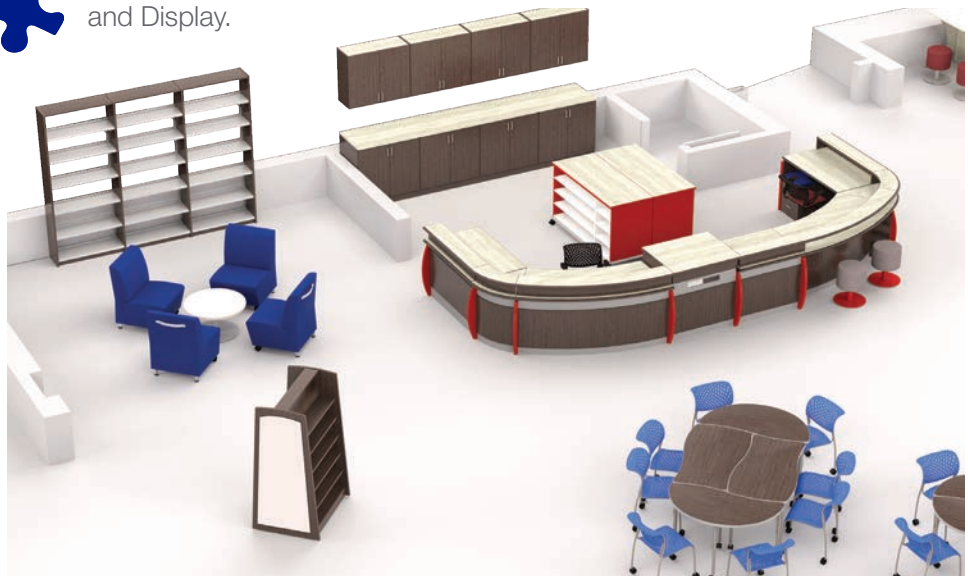

Found in the perimeter of the room, and also used to create a Space within the Commons Zone. Great for Gathering/Collaborating

This junior high space contains all 4 Zones. The Classroom Zone is the heavy hitter, with Collaboration Spaces galore!

JRHS Welcome Zone

Primary Zone

Welcome Zones are a great place to include Reading/Quiet spaces, Storage and Display.

Functions:

- Reading/Quiet
- Storage
- Display

Malibu Circulation Desk as a kit? Well, of course! Pair this desk with patron side seating and task chairs for the librarians.

Featured Function

A quiet reading area is nestled in between the circulation desk and bookstacks.

Ingredients:

- 31-Series Shelving
- Engage Chairs
- Orbit Occasional Table
- Tapered Display

JRHS Commons Zone

Commons Zone

In this Zone, we see Display, Collaboration, and Independent study.

Functions:

- Display
- Collaboration
- Independent Study

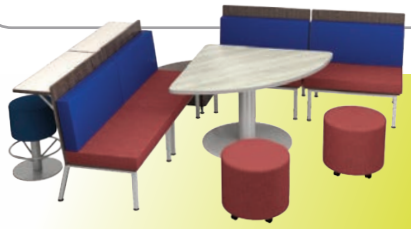

Featured Function

This Space shows a modern version of the traditional classroom space within the media space. The shapes and mobility of these Rockford Tables, paired with Hannah Mobile Chairs, make this space usable to many users for different purposes.

Ingredients:

- 31-Series Shelving
- Rockford Tables
- Hannah Mobile Chairs

The Commons Zone is a natural place for group gathering kits, as well as open areas for quick stops and independent study.

JRHS Classroom Zone

Classroom Zone

This Zone will naturally flex in function, and accommodate the many needs of teachers and their students. Here we see Group Study, Instruction areas and a more relaxed space to Collaborate.

Functions:

- Group Study
- Instruction
- Collaboration

The Media-Sharing Theater can be created with many different pieces of furniture. See some Media-Sharing options on page 33.

Featured Function

The Space shown here is the Collaboration/ Instructional/Presentation area. Brought to life with our Crayon Media Sharing Theater Kit.

Ingredients:

- Crayon Table
- Full Time Mobile Round Ottoman
- Full Time Rectangle Ottoman
- Full Time Curve Ottoman
- Cirrus Tables
- Cirrus Curve Tables
- Push Pop Stools

JRHS Makerspace Zone

Makerspace Zone

In this particular Makerspace, we see Collaborative sitting and standing workstations as well as Storage, Instruction and Presentation Functions.

Functions:

- Collaboration
- Instruction
- Presentation
- Storage

Featured Function

In this Makerspace Zone, we see many Storage functions by combining Rubix Storage cabinets with elements Wall Cabinets we can move the space around as needed.

Ingredients:

- Rubix Mobile Storage
- elements Wall Storage
- elements Marker Board
- Carlo Stools
- Edison Table w/ Storage
- Work + Box Table
- elements Counter

The Work + Box Island and the Edison Table are perfect for hands on, Collaborative use in your Makerspace!

HS High School

Media Space Total
Book Volume: 6480
Student Count: 700 +/-
Seating Capacity: 77

In this particular high school media space build, the district wanted to focus on a space that was truly multipurpose. Many of today's schools are leaning towards a non-traditional scheme in order to promote group work and students learning to advocate for themselves. This means a less structured environment in which students can find an area that works best for their individual learning process.

The stand-out Zones in this space are Classroom and Commons.

Stacks, appears only in the perimeter of the space.

Stacks

Found in the perimeter of the space. This allows for a more open media space, with less need for supervision at every corner.

This high school space contains 3 Zones. The Commons Zone takes precedence here with many Functional Spaces to accommodate the needs of staff and students.

HS Welcome Zone

Primary Zone

This Welcome Zone contains small Function spaces, such as Display, Storage, Reading/Quiet and Quickstop Functions.

Functions:

- Reading/Quiet
- Display
- Storage
- Quickstop

Did you know that our typical spaces are completely customizable? It's true. By simply substituting one product or kit for another, you can completely change the look of the space! Not to mention, choosing different materials and finishes allows for you to create your very own look, all while sticking to your budget!

Featured Function

The Space shown here incorporates Storage, Display and Reading/Quiet Functions.

Ingredients:

- Stance X-Base Table
- Slide Mobile Chairs
- Rubix Storage Cabinets
- Tapered Display

HS Commons Zone

Commons Zone

In this multi-purpose Commons Zone, we see Independent Study, Privacy, Reading/Quiet and Quickstop Functions.

Functions:

- Independent Study
- Privacy
- Reading/Quiet
- Quickstop

For different groupings of the Cabana kit, visit page 42

Featured Function

The function that takes place here is the Privacy and/or Independent Study space created with Our Cabana.

Ingredients:

- 31-Series Shelving
- Cabana
- Wink Seating
- Orbit Table

The Commons Zone is the perfect place to create areas for independent study, tutoring, test make-ups and one-to-one discussions.

HS Commons Zone

Commons Zone

This Classroom Zone has a wide array of Functions. The Privacy function created by mediatechnologies Cheesewall Pick Kit is strategically placed on the fringe of the traditional Classroom Zone. It blends the two spaces in both form and function.

Functions:

- Privacy
- Independent Study
- Collaboration
- Quickstop

Looking for something a little more "laid back"? The Wink Indy Party kit options are perfect! Shown to the left, this kit is nestled into an opening in the stacks run to create a viewing and collaborating area.

Featured Function

The Functions that take place here are Independent Study and Collaboration.

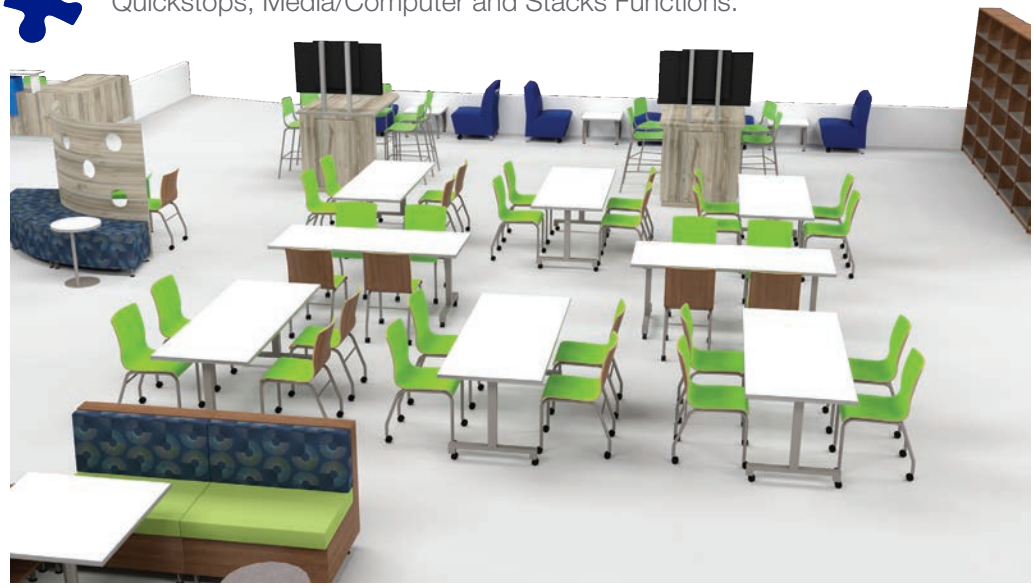

Ingredients:

- Kirby Tables
- Arc Stools
- Tapered Display

HS Classroom Zone

Classroom Zone

In this Classroom Zone we see Group and Independent Study, as well as Quickstops, Media/Computer and Stacks Functions.

Functions:

- Group/Independent Study
- Quickstop
- Media/Computer
- Stacks

Featured Function

This Space incorporates Media/Computer and Presentation Functions.

Ingredients:

- Engage Chairs
- Time Tables
- Crayon Tables
- Arc Stools

Classroom Zones can range from a typical arrangement of tables and chairs to a complete collaborative learning structure.
Our kits are configured to support presentation and instructional functions within the overall Classroom Zone.

IDEAS

Welcome Zone 44-49
Classroom Zone 50-61
Commons Zone 62-71
Makerspace Zone 72-75
Stacks 76-79

* Bonus Story!

A brief glimpse into a Colorboarding breakthrough!

Pages 37 & 41

All of the kits featured in this Guide can be viewed on our website. You'll find great information about each individual product there!

Visit mediatechnologies.com for more information!

...But wait,
Where does shelving fit into kits?

Remember in the last section, we talked about bookstacks being found in the perimeter of the media space to define **Zones** and the interior of the space to create smaller spaces within that Zone. Here is your opportunity to take what you have learned and define those smaller spaces that your Kits fit into! Use Stacks as dividers between **Zones** and **Functions.**

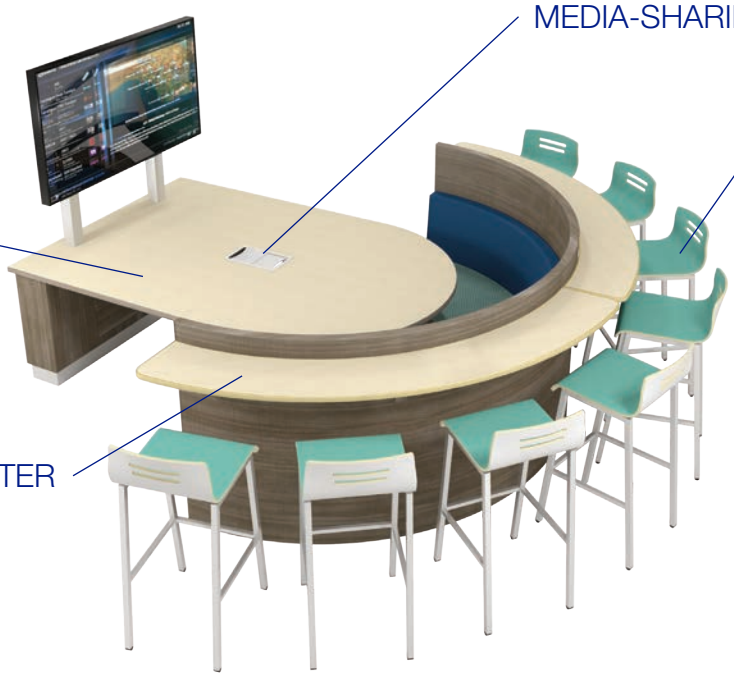

Products, UNITE!

KITS

A KIT is a combination of [3 or more] furniture items that provide a unique solution or perform a function when used together.

EXAMPLE KIT:

COLLABORATION/WORK/MEDIA-SHARING

This KIT provides users a dedicated space to work, view and share media. It provides seating and worksurface for a group of up to 14 to collaborate in a compact theater environment.

"I like this KIT, *but...*

- …can I get this KIT with a different table?"
  - YES! We have lots of different tables that can be used in this KIT to achieve the functionality you want.
- …can I get this KIT with a different curved seating item?"
  - YES! We also have desk-style and table-style curved items that can work when used in conjunction with some of our curved seating.
- …can I get this KIT with different stools?
  - YES! We have many styles of stools available for you to choose from.

Browse the next few pages to see some of the other KIT Solutions we have for you.

COLLABORATION

COLLABORATION/WORK/MEDIA-SHARING

Crayon Media-Sharing Theater

GATHERING

COLLABORATE/SHARE/SOCIALIZE

Duo Lounge Corner

An ideal place to gather for casual collaboration, to socialize or share a few brilliant ideas.

Ingredients:

- (2) Duo Lounge Seating
- (2) Duo Connector Stools
- (1) Duo 90-degree Connector Table
- (1) Orbit Table
- (2) Full Time Round Mobile Ottomans

Duo Lounge Corner Café

Ingredients:

- (2) Duo Lounge Seating
- (2) Duo Café Seating
- (1) Duo 90-degree Connector Table
- (1) Orbit Rectangle Table
- (2) Full Time Crescent Ottomans
- (2) Push Pops

Duo Connector Corner

Ingredients:

- (5) Duo Connector Stools
- (1) Duo 90-degree Connector Table
- (1) Orbit Quarter Round Table
- (2) Rojon Stools

Full Time Corner

Ingredients:

- (5) Full Time Rectangle Ottomans
- (1) Duo 90-degree Connector Table
- (2) Full Time 30˚ Curve Mobile Ottoman
- (1) Orbit Quarter Round Table

Duo Café Face2Face

Ingredients:

- (4) Duo Café Seating
- (1) Duo Rectangle Coffee Table
- (4) Push-Pops

Duo Lounge/Café Corner "U"

Ingredients:

- (4) Duo Café Seating
- (2) Duo Lounge Seating
- (3) Orbit Lap-top Tables
- (4) Push-Pops
- (1) Duo 90-degree Connector Table

A Colorboarding Breakthrough!

"WOW, Joyce. This is an amazing grand opening. Look at all the excitement. Everybody is talking about the colors! I have never seen such a transforming use of color in a media space. The Board is pumped. They're talking 15 more schools in the district! How did you do it?"

Joyce grabbed Jennifer's arm and pulled her into the hallway. "I didn't do it," she whispered. "If I tell you, you have to promise to tell no one." Jennifer laughed. Joyce squeezed Jennifer's arm tight. "I mean it!," Joyce growled. "OK, ok," Jennifer whimpered.

Joyce began to tell the tale.

It was the night before the big presentation to the board. The whole project was on the line. If I didn't nail this, we were finished. Especially Schools and CoMET Furnishings were really after this project and I needed to deliver.

The problem was...I was stuck. I had the furniture, I just couldn't get it all to work together. The walls, the floors... it was not coming together. It was 9:30. I hadn't left the office yet. I had missed the kids soccer games and it was dark and starting to storm outside. I was starting to feel a panic attack coming on.

Suddenly, a loud banging on the office door startled me. I was in no mood for visitors or wayward delivery people. Again, BANG, BANG, BANG! "OK, OK, I'm coming!" I am in NO MOOD for this!

I unlocked the door and slightly opened it to see who it was when…BAM! The door flew open, and in she came. I was stunned for a moment because the door had hit me in the head. When I was able to focus, I noticed a small, grey-headed figure in a black overcoat and matching wide brimmed rain hat. She had several large dripping-wet sample bags that she had plopped on the floor next to my worktable. There she stood, in the puddles next to my table, arms akimbo.

... Continued on page 41

Deuce Café Corner

The Deuce Kit has a tone that is very different than the Lounge Kit above. Metal frame seating and a café counter that invites a few more participants.

Ingredients:

- (2) Deuce Lounge
- (2) Deuce Café Counter Seating
- (1) Duo 90-degree Connector Table
- (1) Orbit Quarter Round Wedge Table
- (2) Full Time Round Mobile Ottomans
- (2) Push Pop Seating

Deuce High Back Café Corner

Ingredients:

- (2) Deuce Lounge HB
- (2) Deuce Café Counter Seating
- (1) Duo 90-degree Connector Table
- (1) Orbit Square Table
- (2) Carlo Stools
- (2) Mobile Carlo Stools

Deuce Café Connector Corner

Ingredients:

- (2) Deuce Café Counter Seating
- (1) Duo 90-degree Connector Table
- (3) Duo Connector Benches
- (1) Orbit Square Table
- (2) Hannah Stools
- (2) Push Pops

Deuce Café Corner

Ingredients:

- (4) Deuce Café Counter Seating
- (1) Duo 90-degree Connector Table
- (1) Derby Tent Table
- (4) 25” Hannah Stools
- (2) Hannah Mobile Chairs

Shirley Booth Bank

This Kit shows a slight twist on traditional booth seating. The bank of booths are arranged in a big welcoming "L" shape with rearrangeable tables and mobile stools. You can take that to the bank!

Ingredients:

- (6) Shirley Booth Seating
- (6) Rojon Stools
- (3) Orbit Tables

Cheesewall Hug

Ingredients:

- (3) Cheesewall
- (1) Rockford Pick Table
- (2) Full Time Round Ottoman
- (3) Full Time Curved Ottoman
- (1) Orbit Laptop Tables

"Look Darlink, are you ready to get to verk, or are you yust going to shtand zere like a dummy?"

I could not believe it. It was Ursula! I thought she was imaginary or retired or something. She was a legend of color, time and space. I had only ever heard stories about her. Some say she was a former Vegas showgirl who got into trouble with a casino owner due to his over-use of pink neon. Others claim she was a former STASI agent, but left because they were too drab. I felt the bump on my head and I rubbed my eyes.

"O.T. sent me, Darlink. Take my coat and get me some tea. Vee hef a lot of verk to do!" Ursula threw her wet coat on my still stationary body and then barked, "NOW!"

When I returned from the kitchen with her tea, all my work had been swept to the floor. In its place on my worktable was the most stunning combination of color palates, finishes, textures and fabric samples I had ever seen. Ursula arranged and organized and paired and prioritized with the speed and precision of a spider. It was like watching Mozart compose in colors. At one point, I attempted to ask her a question. She slapped my face, then put her finger to her lips as if to shush me, "I don't hef time to explain. It yust werks!," Then she told me her tea was cold.

When I returned from the kitchen, Ursula was gone. No bags. No puddles. NO bump on the head. All she left was the amazing work she had done, all prepared for the presentation and a Chicago Blackhawks schedule with a note that read, "I love zees guys. Good Luck tomorrow and BTW, tell no one - U."

Jennifer rolled her eyes. "You expect me to believe that?," she asked. "I think it's time for Joyce to take a vacation."

Joyce pulled the Blackhawks schedule from her jacket.

[gasp] "No!..."

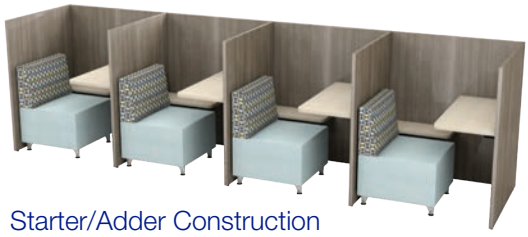

Cabana Single

Room for one. 'nuff said.
Kit it out by utilizing the starter/adder construction.

Ingredients:

- (1) Cabana Single
    - (1) Worksurface
